

CONSULT FEE SCHEDULE

NEW ONCOLOGY CONSULTS "GATHER & GUIDE"

The pricing of our initial oncology consults varies depending on which doctor you decide to work with. If you are unclear on pricing — please contact our Patient Care Coordinator, Jessica at patientsupport@optionsnaturopathic.com with any questions.

Please be aware that all of our initial oncology visits are split up into what we call a "**Gather & Guide**" program. Oncology onboarding consists of your **Gather, Guide,** and **Grasp** visits. You will be onboarding with Dr. Patrick to *gather* all critical information to present to Dr. Erin or Dr. Laura before the second visit where you will be *guided* in your process.

After the new patient consults, patients are classified as **Basic** or **Complex** depending on the overall state of health, hereby referred to as '**terrain**'. All fees are dependent on this classification and which doctor you are working with. Payment is due on the day of service. Payment plans are not available.

Classification is done by our team and is based on current/previous dietary habits, treatments (pharmaceuticals, hormones, antibiotics, etc.), number of diagnoses, as well as other parameters. It is these components of your **terrain** that drive this complexity and determine the level of support and care required. All active oncology patients are considered "**Complex**". In certain circumstances, patients need **Acute** support, as well as **Critical** support (oncology patients) on their road to health.

Prices listed on the next page are the **total fees per consult**, no matter the length, depending on the type of care received at that consults.

Fees include gathering in-depth history, assessment & explanation of lab results, creation of a comprehensive care plan, and coordination of laboratory orders recommended by the doctor, as well as communication needed with other practitioners when a prescription, testing or referrals are needed.

Our entire team is here to support you in correcting your terrain!

<u>CONSULT TYPE</u>	<u>DESCRIPTION</u>	<u>DR. ERIN</u>	<u>DR. LAURA</u>	<u>DR. PATRICK</u>
